PROFILE

Frontend Engineer with **3+** years of experience building scalable web applications using **React.js, Next.js, TypeScript, and JavaScript**. Experienced in responsive UI development, frontend **performance optimization, technical SEO, and REST API integration**. Leverage AI-powered development tools including **Cursor, ChatGPT, Claude, GitHub Copilot, and Gemini** to accelerate development, improve code quality, streamline debugging, and automate repetitive tasks.

PROFESSIONAL EXPERIENCE

- Plootus** , *Software Engineer* May 2026 – Present | Remote
- Developed and maintained production **React.js and Next.js** applications for financial planning platforms.
 - Implemented technical **SEO improvements** across 4,000+ pages, including **metadata, canonical URLs, XML sitemaps, and structured data**.
 - Built reusable **SEO utilities** and **JSON-LD schemas** (FAQ, Article, Breadcrumb, VideoObject, Dataset, Organization, and WebSite).
 - Improved **Core Web Vitals** through image optimization, responsive UI enhancements, and performance best practices.
 - Collaborated with cross-functional teams to deliver scalable React.js and Next.js features using **Git, GitLab, Agile methodologies, and AI-assisted development** workflows.
- Cybage Software Pvt. Ltd** , *Software Engineer* Jan 2022 – Oct 2024 | Pune
- Led migration of legacy applications to **Next.js**, improving performance, SEO, and overall user experience.
 - Built scalable frontend solutions using **React.js, Redux, TypeScript, and Next.js** for web and e-commerce platforms.
 - Improved application load time by **up to 47%** by optimizing state management and frontend performance.
 - Integrated Shopify (Liquid), Klaviyo, Mixpanel, and Hotjar for analytics and user engagement.
 - Implemented **responsive, mobile-first UI** ensuring cross-browser compatibility and consistent user experience.
 - Optimized performance using **lazy loading, code splitting, image optimization, and SSR**, resulting in faster page loads.
 - Improved **SEO, accessibility (WCAG), and page speed**, enhancing search visibility and usability.
 - Maintained high code quality through peer reviews, **Git workflows, Agile practices, and AI-assisted** development using **GitHub Copilot** and **ChatGPT**.

SKILLS

- Programming Languages** — HTML5, CSS3, JavaScript (ES6+), TypeScript
- Frameworks & Libraries** — React.js, Next.js, Redux, jQuery, Material UI, Ant Design
- UI & Design** — Tailwind CSS, Responsive Design, Flexbox, CSS Grid, Mobile-First Development, Figma
- API & Integration** — REST APIs, Shopify, Klaviyo, Mixpanel, Hotjar
- State Management** — Redux, Context API
- SEO & Performance** — Technical SEO, Google Search Console, JSON-LD Schema, Core Web Vitals, Lighthouse, PageSpeed Insights, Semrush, Lazy Loading, Code Splitting, SSR
- Developer & AI Tools** — Git, GitHub, GitLab, npm, Yarn, Vite, Webpack, Chrome DevTools, JIRA, Agile (Scrum), Cursor, ChatGPT, GitHub Copilot, Claude, Gemini

EDUCATION

- IACSD** , *Post Graduate Diploma in Advanced Computing (DAC) CDAC* May 2021 – Sep 2021 | Pune
- Modern Education Society's College of Engineering** , *Bachelor of Engineering (B.E.)* 2016 – 2020 | Pune

PROJECTS

- Anti-Gravity Interactive Simulation** 
- Built an interactive physics simulation using **JavaScript and Matter.js** with real-time rendering.
 - Implemented collision detection and dynamic interactions using **HTML5 Canvas**.
- Personal Portfolio** 
- Designed and developed a responsive portfolio using React.js, showcasing frontend projects, professional experience, and technical expertise.
